2027 PRICING UPDATES

As we look forward to another great season at Blackhawk Lake, we want to share a few changes coming in 2027.

We have decided to restructure our pricing format with the goal to simplify our rates, eliminate additional fees, and create a pricing structure that will help us continue providing the park experience our guests know and love.

Please read through this entire document. It explains all updates and changes coming in 2027!

RESERVATION FEES

We're saying goodbye to reservation fees when you book directly with us!
Reservation fees for in-person and over-the-phone reservations are being completely eliminated. You'll simply pay the nightly camping rate with no additional booking fee.

Online reservations will have a $5.00 booking fee. This fee is charged to us by our reservation software provider for online bookings, so unfortunately, we are unable to eliminate it entirely.

CARD FEES

Another fee we're happy to say goodbye to!

Beginning in 2027, we are eliminating our 3% credit card fee. There will no longer be additional charges for card users.

PRICING UPDATES CONTINUED...

WISCONSIN SALES TAX

A change to how we handle sales tax...

For many years, Blackhawk Lake has absorbed Wisconsin sales tax within our posted prices. Beginning December 1st, at the recommendation of our auditors, 5.5% Wisconsin sales tax will be calculated separately and added at checkout.

While this will result in a small increase to the final purchase price, sales tax itself is not new at Blackhawk Lake. By no longer absorbing the tax within our rates, more of the posted price can go directly toward the rising costs of operating, maintaining and improving the park.

This change will help us continue caring for Blackhawk Lake and providing the experience our campers and visitors have come to enjoy for years to come.

CASH/CHECK DISCOUNT

Since we pay an arm and a leg in processing fees...

Customers who choose to pay by cash or check will receive a 3.9% discount on their purchase. It's our way of passing along the savings from reduced processing costs directly to you!

2027 pricing
